COMPETITION FORMAT AND RULES

SPEED SKATING

As of January 2018

OLYMPIC COMPETITION FORMAT

Speed skating comprises 14 events (distances) at the PyeongChang 2018 Olympic Winter Games:

- ladies: 500m, 1000m, 1500m, 3000m, 5000m, mass start and team pursuit
- men: 500m, 1000m, 1500m, 5000m, 10,000m, mass start and team pursuit

Individual distances (except mass start)

All individual distances except the mass start are organised in a single-race format.

Mass start

Two semifinals and a final will be skated on the same day. Each race consists of 16 laps with intermediate sprints after four, eight and 12 laps and a final sprint. Event rankings are based on points gained in sprints, then by finish time for athletes not scoring any points.

Team pursuit

Ladies' and men's team pursuit races will be skated over two days. The first day's programme will include the quarterfinals for both ladies and men. On the second day, the semifinals for ladies and men and all finals (medal races and classification races) will be staged.

The four fastest teams from the quarterfinal races will advance to the semifinals, the two fastest losers will race in final C for fifth and sixth places, and the two slowest losers will race in final D for seventh and eighth places. The winners of the semifinals will race in the gold-medal race and the losers of the semifinals in the bronze-medal race.

DIFFERENCES BETWEEN THE ISU WORLD CHAMPIONSHIPS AND THE OLYMPIC WINTER GAMES

The Olympic Winter Games competition format is similar to the world single distances championships but only one distance is skated per day of competition. The team pursuit is skated with a set of elimination phases, ending with decisive final races. In the world championships, the team pursuit events are decided on time performance in a single set of races.

Other ISU Speed Skating World Championships (world allround and world sprint championships) have a different format than the Olympic Winter Games competition programme; in these championships, results are determined by the total points after four distances.

CHANGES SINCE THE SOCHI 2014 OLYMPIC WINTER GAMES

The team pursuit progression from the quarterfinals to semifinals has been changed. The ladies' mass start and men's mass start have been added. The race format for ladies' and men's 500m has changed from a two-race format to a single race.

SPORT RULES AND PROCEDURES

Racing course

The oval has a 400m track with two competition lanes. Skaters compete in pairs. One starts in the inner lane, the other in the outer. The competitors starting in the inner lane must wear white armbands, competitors in the outer lane red armbands. The skaters change their lanes at the crossing straight (opposite the finishing straight) every lap. However, when a distance starts on the crossing straight, the first changeover takes place after one lap.

Competitors are placed in groups based on the ISU ranking list. Pairs are drawn within each group. The pairs from the group with the best skaters start at the end of the competition.

For the mass start, skaters start together and only one competition lane (restricted only by the inner demarcation of the warm-up lane) is used. The total number of skaters will be limited to 24 female and 24 male. Both women and men skate over a distance of 16 laps.

For the team pursuit races, only one competition lane (restricted only by the inner demarcation of the inner racing lane for individual races) is used. The two teams in each team pursuit race start and finish in the middle of the finishing and the crossing straights respectively.

Starting order

Competitors are placed in groups based on the ISU ranking list. Pairs are drawn within each group. The pairs from the group with the best skaters start at the end of the competition.

The same procedure applies to the quarterfinals of the team pursuit events. All participating teams will be seeded according to their ISU ranking. For the quarterfinals, the top four teams according to the ISU ranking will be assigned to the heats (rank 1 to heat 4; rank 2 to heat 1; rank 3 to heat 2; and rank 4 to heat 3). The teams ranked 5 and 6 will be drawn to skate with teams ranked 3 and 4, teams ranked 7 and 8 will be drawn to skate with teams ranked 1 and 2. For the semifinals and finals of the team pursuit events, the races are composed according to the results from the previous round of races.

Re-skate

The referee may allow a skater or team a fresh start (re-skate) in cases where the skater or team has been obstructed by another skater or team in the race, or by some other disturbance. In the case of a re-skate, the skater or team has the right to a rest time of 30 minutes, and the result is determined by the best time of the two races.

Timing

Races will be timed automatically, to an accuracy of one thousandth of a second, with multiple automatic timekeeping systems and a manual timekeeping providing backup. Times will be displayed to one hundredth of a second unless skaters/teams are tied and the tie can be broken at the thousandth-of-a-second level.

For the individual events, results are based on time performance only (no elimination phases).

For the team pursuit events, the finishing time of each team is recorded as the time of the last (third) finishing skater of the team.

Tie-break rules

Individual distances (except mass start)

- If two or more skaters obtain the same time to the hundredth of a second, the ties will be broken to the thousandth of a second. Times will then be presented with the thousandth of a second included. If times are still equal, the tie remains.

Mass start

- If two or more skaters obtain the same rank in the intermediate sprint as recorded by the transponder-based timing, ties will be broken taking into consideration the ranking order according to the photo finish-based timing system. If it is not possible to distinguish the order of the skaters by photo finish, the tie remains and both skaters receive the same number of race points (five, three or one points respectively).
- If two or more skaters obtain the same total of race points, the order of finish in the final sprint will break the tie, where possible.
- If two or more skaters with the same number of race points obtain the same finishing order in the final sprint, as recorded by the photo-finish system, the tie in the final sprint remains.
- Times in the final sprint for skaters who have gained no race points and obtain the same time to the hundredth of a second will then be presented with the thousandth of a second included.

Team pursuit

- If two teams obtain the same time to the hundredth of a second, the tie will be broken to the thousandth of a second. Times will then be presented with the thousandth of a second included.
- If ties remain after considering the times to the thousandth of a second for quarterfinals or semifinals: a tie for qualifying for progression to the next phase will be broken by the Olympic qualification ranking. Times for tied teams will be presented to the thousandth of a second.
- If ties remain after considering the times to the thousandth of a second for finals: the tie remains.

Penalties/disqualification rules

A competitor will be disqualified according to ISU rules:

- in the case of a false start when there has already been one false start in the pair (not applicable for mass start)
- in the case of a breach of the rules concerning authorised competition equipment
- in the case of a doping offence (positive doping test)
- in the case of a breach of the eligibility rules of the ISU

Based on the judgement of the referee, a competitor can be disqualified according to ISU rules:

- if the skater does not keep within the prescribed lane (not applicable for mass start)
- if the skater obstructs another competitor
- in the case of improper conduct towards officials

Protests/appeals

- protests concerning the participation of any skater must be made before the start of the competition
- protests concerning results of the competition must be made during or immediately after the competition. Such protests will be decided upon by the referee
- no protests can be made after the official results have been declared

Note:

Information provided by the ISU. For further information please consult: www.isu.org

Helmet Covers for the Mass Start

Summary:

Helmet Covers for the Mass Start

Details:

Semifinals (same system for Ladies and Men)

- All skaters in Semifinal 1 for Ladies and all skaters in Semifinal 1 for Men will wear WHITE helmet covers, with numbers 1 to 12
- All skaters in Semifinal 2 for Ladies and all skaters in Semifinal 2 for Men will wear BLUE helmet covers, with numbers 1 to 12

Finals (same system for Ladies and Men)

- Skaters qualifying from Semifinal 1 will wear WHITE helmet covers, with numbers 1, 3, 5, 7, 9, 11, 13, 15 - according to their ranking in Semifinal 1
- Skaters qualifying from Semifinal 2 will wear BLUE helmet covers, with numbers 2, 4, 6, 8, 10, 12, 14, 16 - according to their ranking in Semifinal 2

This is done to make it easier to distinguish between two Skaters from the same country racing in the Final.

If a Country will have two Skaters qualified for the Final, the Skater qualified from Semi Final 2 will also wear a YELLOW armband.
