

## **ISU Anti-Doping Program: Promoting Fair Sports and Protecting Athletes**

Working in collaboration with the World Anti-Doping Agency (WADA), the ISU has developed since 1999 an extensive anti-doping program including in and out-of-competition urine and blood tests. Athlete Biological Passport (ABP) is also fully implemented in the ISU anti-doping program. In the 2012/13 season the ISU carried out nearly 2700 anti-doping tests, with WADA carrying out a further 76 out-of-competition tests on ISU athletes.

Specific anti-doping information for 2012/13:

### **ISU in-competition testing:**

#### **i) ISU Blood Screening:**

Speed Skating:	843 pre-competition	130 in-competition
Short Track Speed Skating:	535 pre-competition	49 in-competition
<b>Total:</b>	<b>1378 pre-competition</b>	<b>179 in-competition</b>

#### **ii) Urine tests**

Figure Skating:	217
Speed Skating:	397
Short Track Speed Skating:	180
Synchronized Skating:	17
<b>Total:</b>	<b>811</b>

#### **iii) ABP Blood testing**

Speed Skating:	60
Short Track Speed Skating:	13
<b>Total:</b>	<b>73</b>

### **ISU out-of-competition testing**

#### **i) Blood tests**

Speed Skating	2
---------------	---

#### **ii) Urine tests**

Figure Skating:	31
Speed Skating:	93
Short Track Speed Skating:	44
<b>Total:</b>	<b>168</b>

#### **iii) ABP Blood testing**

Speed Skating:	72
Short Track Speed Skating:	25
<b>Total:</b>	<b>82</b>

In the 2013/14 season, the ISU will increase its targeted out-of-competition testing based on competition results, blood tests and data from the ISU's longitudinal hematological database and Athlete Biological Passport.
