new ideas and approaches to improving the overall physical competence of competitors and to prevent possible injury in early childhood. On another hand, we would like to represent them information on how to help children develop in a well-relaxed environment and motivate them when they come into crisis because of injury or want to stop continue with sport. We would like to continue in next year to give to the coaches the knowledge in physical preparation of young kids and thus prevent various injuries that occurred in early childhood and rapid growth of child. As country and parents in east country like Slovenia, Serbia, Romania, Bulgaria, Bosnia and Hercegovina and others doesn't have opportunity and money to afford individually fitness trainers and psychologists, we would like to represent them how to develop competitors and their progress.

On another side we would like to give younger kids opportunity to work with other coaches and to improve in basic technic of skating skills. As the countries mentioned above doesn't have a lot of ice trainings and possibilities they usually have low basic skating skills, we would like to do the common trainings where they would learn basic skating skills. The coaches of skaters are invited to take part on ice and to help their kids and learn from the moderator. After the trainings there will be 30 min of possibility to ask moderator some question regarding the training or exercises they did on the training.
