6. **Technical Requirements – Synchronized Skating**

Synchronized Skating

Free Skating

A team shall consist of 12-16 skaters and may include both ladies and men. Each Team may have up to a maximum of four (4) alternates listed as such on the Team roster. Skaters must meet the age requirements as stated in this announcement.

The Free Program must be skated according to ISU Rules for 2015-2016 (Special Regulations & Technical Rules Synchronized Skating 2014, ISU Communications No.1942 and all other pertinent ISU Communications).

The teams must skate a well-balanced Free Skating Program which must contain the following (6) required elements:

1. Intersection Element
2. Linear Element - Line
3. Pivoting Element – Block
4. Rotating Element - Wheel
5. Traveling Element – Circle
6. A choice of one (1) of the following Elements:
 - Creative Element OR
 - Combined Element

Additional elements may be incorporated into the Free Skating Program and will be judged as transitions and/or choreography components. The Planned Program Content sheet should indicate which elements are transition/choreography elements. Definitions of recommended elements are in accordance with ISU Rules 905 and 911, paragraph 2. Difficulty Groups of Elements and Features and the description of their requirements are in accordance with the pertinent ISU Communications.

Illegal Elements: The illegal elements are those applicable to Junior Free Skating, Rule 912, paragraph 10 b. In addition, “vaults” are illegal.

The Team must use a variety of holds. A minimum of three (3) different clearly recognizable holds is required. The holds may be done either in Elements or transitions.

Any music including vocal music using lyrics is permitted. However, the Teams must skate the program in time to the music.

Duration	The maximum time is 3 minutes and 10 seconds, but may be less. The time must be reckoned from the moment a skater begins to move (arm, head etc.) or to skate until arriving at a complete stop at the end of the program.
Factor	The points for each Program Component are multiplied by a factor of 1.0
Practice Ice	Official competition practice ice will be offered on the day of the SYS competition.

Extra Practice time will be available and can be booked through the respective competition organizing committee. Extra practice cannot be booked for the day of the competition.

7. Technical Requirements – Artistic Skating

Artistic Skating

General

The artistic events will be judged only on the basis of the Program Components:

- Skating skills
- Transitions
- Performance/Execution
- Choreography/Composition
- Interpretation/Timing

See ISU Special Regulations and Technical Rules 2012, Singles & Pair Skating, Rule 522, paragraph 2 for a detailed description of Program Components. The respective Rules can be found on the ISU website. There will be no technical panel and no technical mark given.

The artistic program consists of a variety of skating moves selected for their value in enhancing the skater's interpretation of the music rather than for their technical difficulty. Skaters will be judged on their ability to interpret the music and develop a theme by using their skating skills. Credit for technical elements is based solely on the ability of such movements to enhance the chosen theme and support the music. Credit will not be given for their technical difficulty.

The program must be developed through skating skill and quality rather than through non-skating actions such as sliding on one knee or excessive use of toe steps, which should be used only to reflect the character of the program and to underline the rhythm and nuances of the chosen music. The skater/pair must not remain in one place for more than five (5) seconds.

Any element exceeding the maximum number as set forth below will be judged as an illegal element (1.0 deduction); if there is no jump or no spin element included or only a jump and no spin or vice versa a deduction for a “missing element” of 1.0 will be made. The Referee is responsible for such deductions.

Costumes should be simple, tasteful and appropriate for sporting competition. Costumes should be selected to enhance the performance by appropriately reflecting the character of the music and theme.

Props may not be used in any part of the artistic programs. Any item that is held in the hand or removed during the performance is considered a prop. Thus, for example, a hat worn throughout the program is not considered to be a prop, but if it is intentionally removed during the performance it is considered a prop. Objects on the ice, thrown in the audience, placed on the boards or on the judges table are not permitted. Costumes that contain particles that may mar or leave anything on the ice surface (feathers, boas, excessive beading) are considered unsafe and are not permitted. The Referee is responsible for prop deductions.

Illegal elements:

- Somersault type jumps
- Lying on the ice and prolonged and/or stationary kneeling on both knees on the ice
