

How should the Referee check the duration of Lift and apply the “Extended Lift” deduction

- (1) Select the lift you want to time.
- (2) Press button “Video Timer”

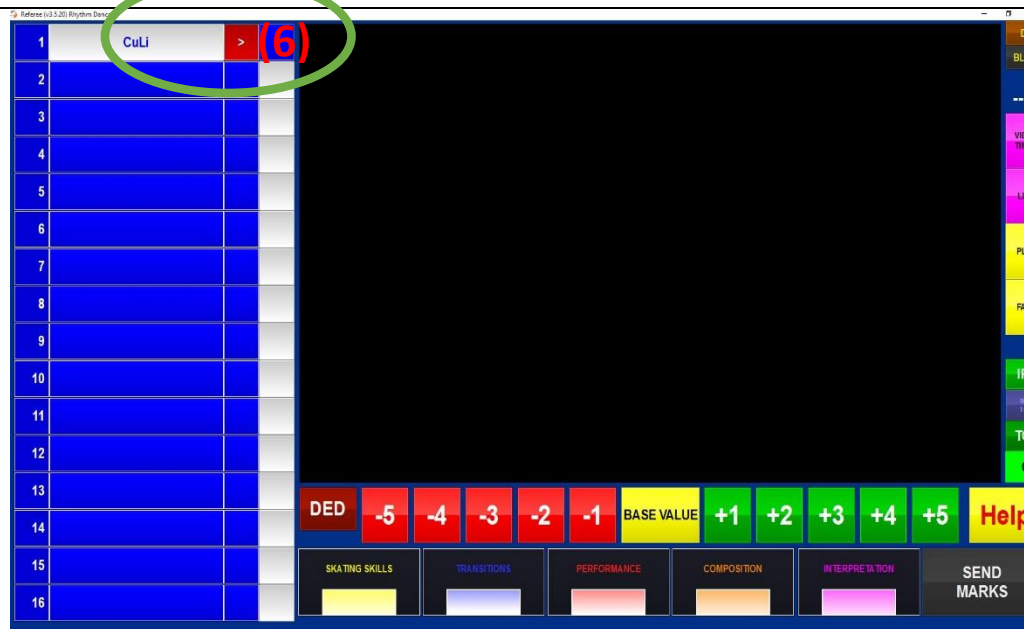

- (3) Time the respective lift
- (4) If the lift is too long (“Extended Lift”), press button “Ext. Lift (-1) >”

With this action the sign “>” will appear next to the lift and the -1 deduction will be applied. (see next page)
- (5) Press “RETURN” button to return to main screen.

How should the Referee check the duration of Lift and apply the “Extended Lift” deduction

(6) > sign appears next to lift

(7) You may check via the “DED” button from the main screen if the “Extended Lift Deduction” is shown correctly.
