Lausanne, Switzerland

Update on ISU Event Calendar season 2020/21

The ISU Council met on Thursday December 10, 2021. Among other decisions that will be published in due course in an ISU Communication Decisions of the Council, the Council decided to cancel the following ISU Events in view of the worsening worldwide Covid-19 pandemic situation and the consequent increasing risks for organizers and participants:

- ISU European Figure Skating Championships 2021, Zagreb, Croatia on January 25-31, 2021
- ISU World Junior Synchronized Skating Championships 2021, Lyon, France on March 12-13, 2021

In addition, the ISU Grand Prix Final season 2020/21 which had already been postponed from its originally scheduled date of December 10-13, 2020 in Beijing, China, has now been definitely cancelled.

The ISU World Figure Skating Championships remain scheduled to be held in Stockholm, Sweden on March 22-28, 2021. In the unfortunate event that the sanitary situation worsens further and that these World Championships could not be held as planned, the ISU Council would assess and reevaluate the remainder of the 2020/21 Figure Skating season and decide whether, in addition to the World Team Trophy, scheduled for Osaka, Japan on April 15-18, 2021, other ISU Figure Skating Events could be organized, if the pandemic situation allows.
